Let's shoot!

I'm a full time photographer along the Emerald Coast and 30A in Florida and love what I do every single day. I've lived in 5 states and worked for some local magazines, been in the business for over 14 years, specialize in women's and adventure fashion portraits and spend time hosting a podcast.

*60 minute session 1 location

*20 digital files included

*2 outfits

* headshots/product shots

****Ask about adding hair and makeup

What to wear

The best thing is to wear something you feel confident in!

Tips

- Opt to bring a jacket or something to layer to add another “look” easily so you can have more content!
- I love colors- but make sure to bring one outfit that’s neutral & classic- you’ll be able to reuse those images longer/more often
- what reflects you/your brand and what will attract your ideal client
- bring your product or what shows off your service for those detail shots

Where to shop

You probably don’t need to buy anything new but just in case I have made some suggestions I’ve photographed before in my Amazon page!
